MARBLE

Designed to Inspire

"Marble" shows the elegance and luxury feel of stone but still keeps the exceptional performance of unglazed porcelain tile. It adds a technology component to a very noble and fine material. Incredible colour, detail and veining are uniquely and beautifully reproduced o every tile.

Micro-Engraving Technology

Represent the lively texture of Mable

Originated from Italy design, Mable series has adapted the micro-engraving technology to represent the texture effect on the surface of the tiles, lively as natural mable.

Three-Dimensional Inkjet Technology

Reproduce Nature

Using the advanced Inkjet equipment and glaze technology to extend the color gamut, the natural color of Mable has been reproduced in Mable series.

Numerous surface in One Mable

Heighten the natural effect eith multiple layouts

Marble series has adopted multi-edit positional output technology to guarantee numerius layouts in every product and used various compound techniques to produce multiple surface effect, heighten the natura effect after installing.

High Denition Effect

Reproduce a real mable

Marble series, originated fromItaly as its name suggests, realistically reproduce of mable in Italy with its vivid and multiple surface.
