MARBLE

Designed to Inspire

“Marble” shows the elegance and luxury feel of stone but still keeps the exceptional performance of unglazed porcelain tile. It adds a technology component to a very noble and fine material. Incredible colour, detail and veining are uniquely and beautifully reproduced on every tile.

Micro-Engraving Technology

Represent the lively texture of Marble

Originated from Italy design, Marble series has adapted the micro-engraving technology to represent the texture effect on the surface of the tiles, lively as natural marble.

Three-Dimensional Inkjet Technology

Reproduce Nature

Using the advanced Inkjet equipment and glaze technology to extend the color gamut, the natural color of Marble has been reproduced in Marble series.

Numerous surface in One Marble

Heighten the natural effect with multiple layouts

Marble series has adopted multi-edit positional output technology to guarantee numerous layouts in every product and used various compound techniques to produce multiple surface effect, heighten the natural effect after installing.

High Definition Effect

Reproduce a real marble

Marble series, originated from Italy as its name suggests, realistically reproduce of marble in Italy with its vivid and multiple surface.
