

# MARBLE

*perfect-nature*

### **Micro-Engraving Technology**

Represent the lively texture of Marble

Originated from Italy design, Marble series has adapted the micro-engraving technology to represent the texture effect on the surface of the tiles, lively as natural marble.

### **Three-Dimensional Inkjet Technology**

Reproduce

Nature the advanced Inkjet equipment and glaze technology to extend the color gamut, the natural color of Marble has been reproduced in Marble series.

### **Numerous surface in One Marble**

Heighten the natural effect either multiple layouts

Marble series has adopted multi-edit positional output technology to guarantee numerous layouts in every product and used various compound techniques to produce multiple surface effect, heighten the natural effect after installing.

### **High Definition Effect**

Reproduce a real marble

Marble series, originated from Italy as its name suggests, realistically reproduce of marble in Italy with its vivid and multiple surface.

# STONE MASTER

“ Keep the soft and elegant tones to show the details of the marble texture. ”

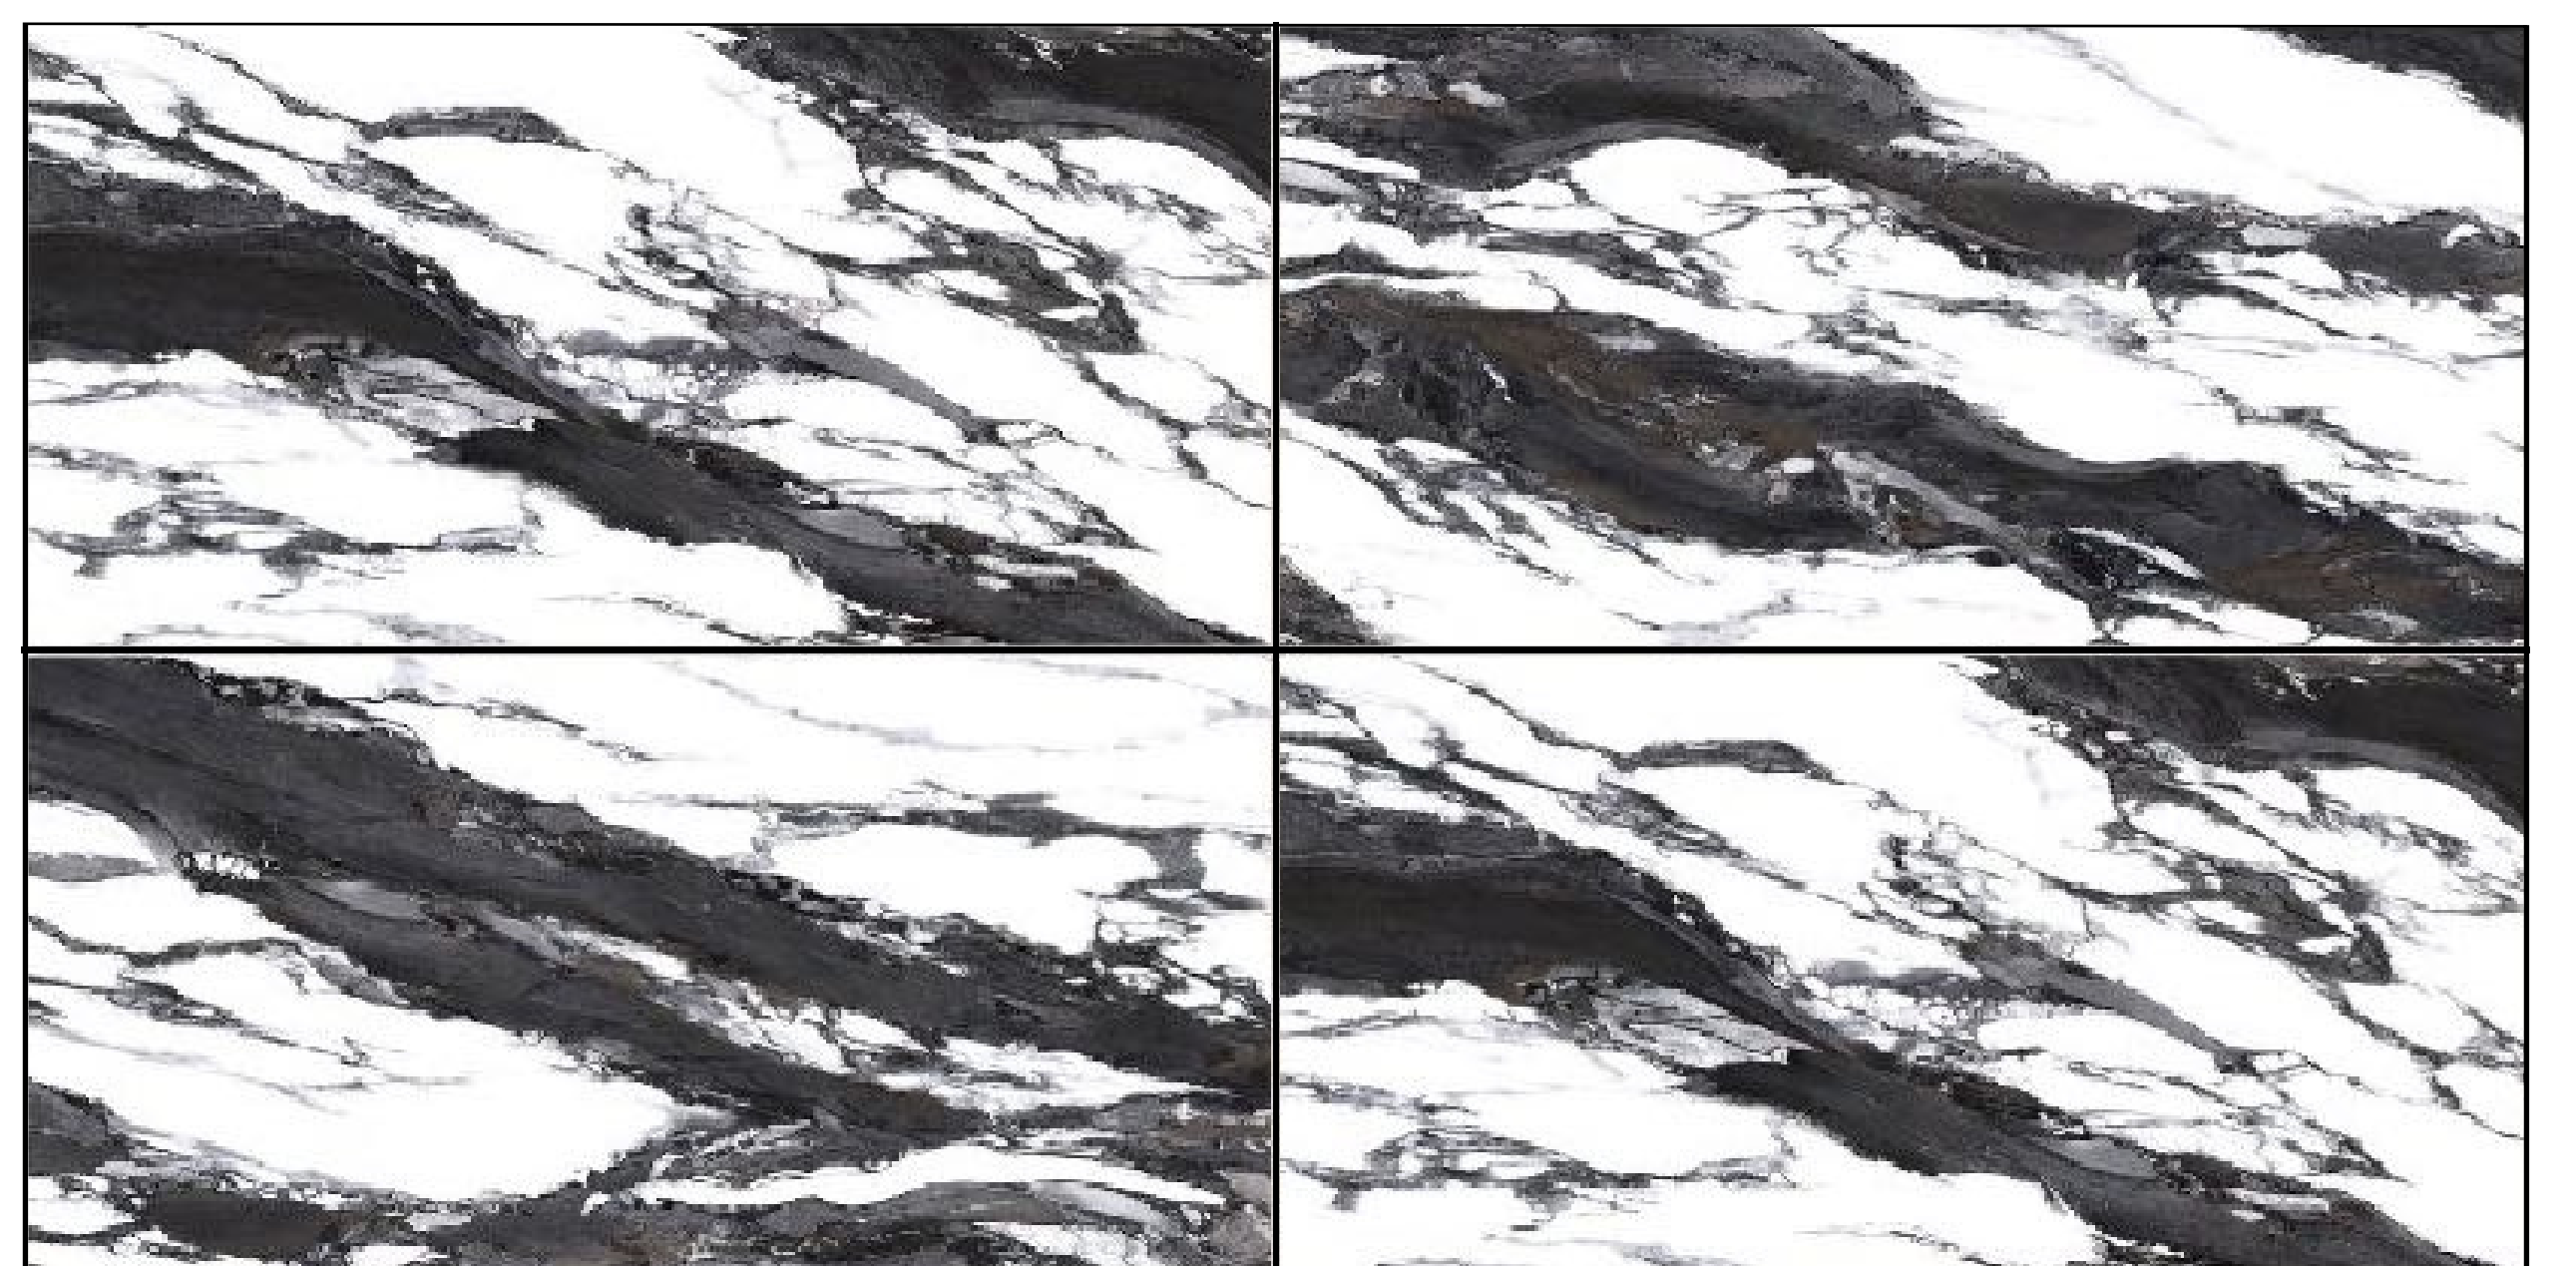

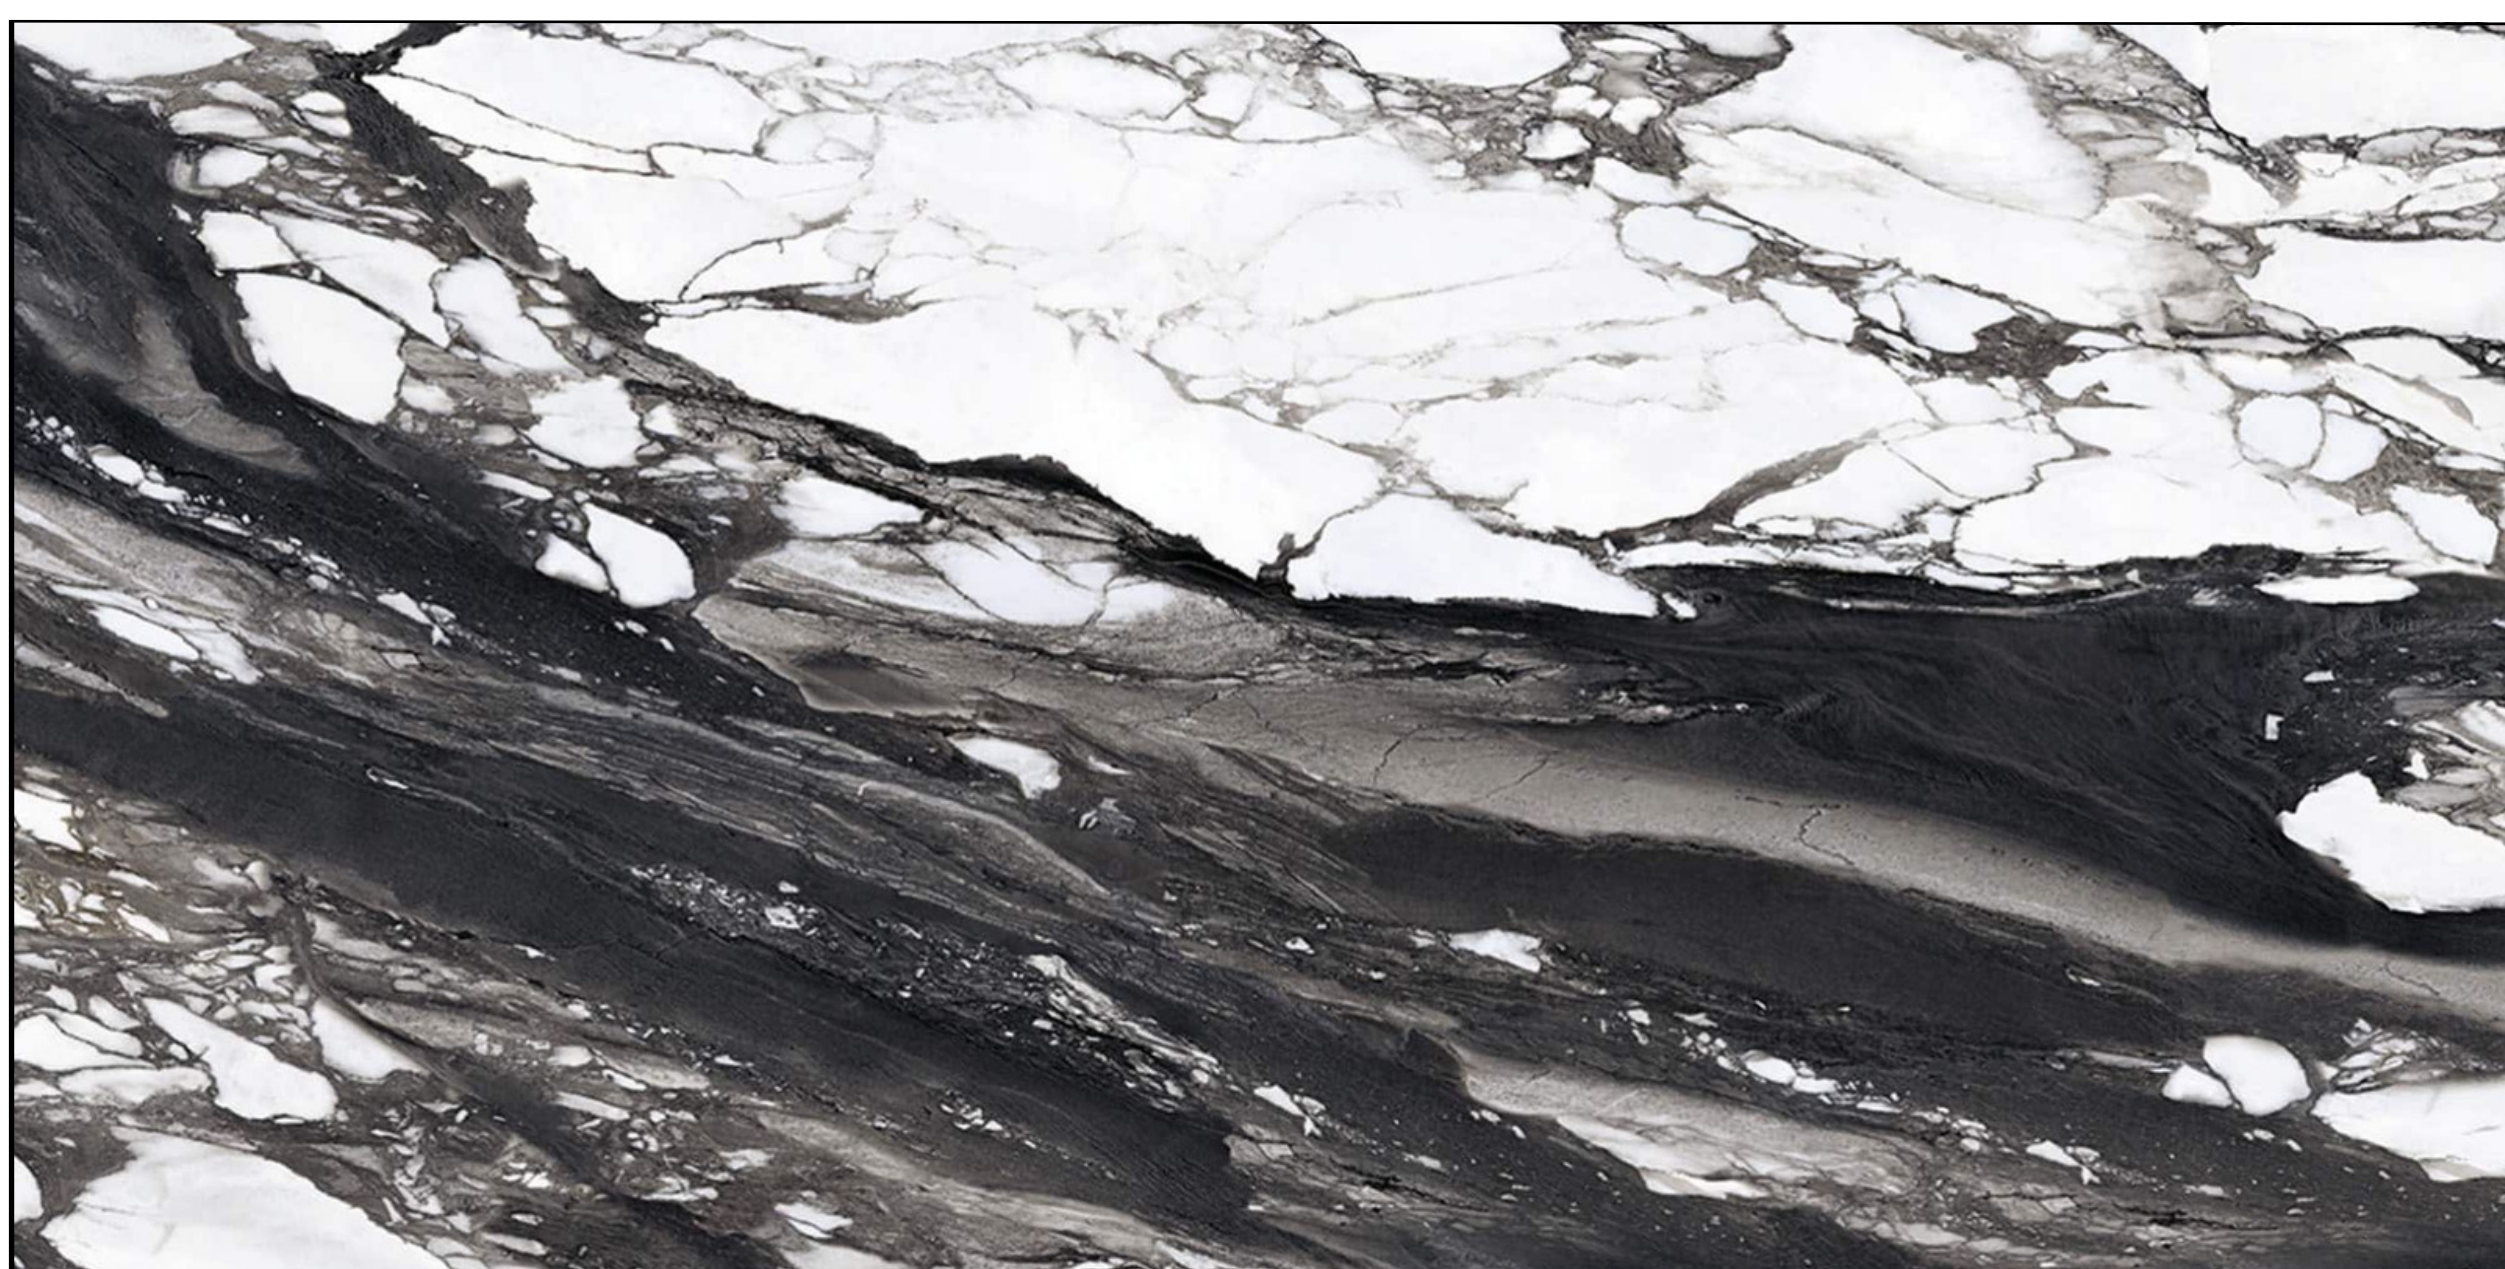

Designed to Inspire

“Marble” shows the elegance and luxury feel of stone but still keeps the exceptional performance of unglazed porcelain tile. It adds a technology component to a very noble and fine material. Incredible color, detail and veining are uniquely and beautifully reproduced on every tile.
